

Dylan Ramirez Lopez

Coronado, Goicoechea, Costa Rica | dramirezlops08@gmail.com | 6431 5294

Professional Profile

AI and Software Development Specialist with a solid technical background and proven experience in process automation (Python, Pandas), Web Scraping (BeautifulSoup, Selenium), IoT systems (Arduino), and IT support. I have optimized workflows, reducing execution times by 30% and increasing critical information availability by 45%. I combine software development, Machine Learning (Scikit-learn), and technical support to design scalable solutions with measurable impact from day one. Agile and results-oriented profile.

Experience

IT Technician, All Fire – Costa Rica

Nov 2025 – present

- Perform daily preventive and corrective maintenance of computer equipment, printers, and network devices, ensuring continuous operability of the technological infrastructure.
- Microsoft 365 administration and support: manage users, emails, permissions, and cloud services to optimize team productivity.
- Developed and implemented an automatic door with facial recognition using AI, improving security and modernizing physical access control.
- Configure and manage switches and network connections, ensuring stability and optimal performance of the infrastructure.

High School Practicum – AI & Automation, Bertux Studio SRL – San José, Costa Rica

Oct 2025 – Nov 2025

- Designed and implemented AI systems (Python, Pandas) using a scalable cloud microservices architecture, reducing time spent on repetitive tasks by 30%.
- Developed Web Scraping scripts (BeautifulSoup, Selenium) that improved the availability of critical information for decision-making by 45%.
- Trained classification models (Scikit-learn) for automatic template generation, eliminating manual formatting errors while adhering to brand standards.

High School Technical Internship – IoT & Prototyping, Tailored Solutions – Escazú, Costa Rica

Sep 2024 – Sep 2024

- Led the integration of hardware (Arduino) and touch sensors, achieving 45% more immersive commercial demonstrations for potential clients.
- Synchronized sensors and software in real-time, optimizing product presentations and strengthening the company's technological image for investors.

Education

Universidad Fidélitas, Software Engineering – Costa Rica

Jan 2025 – present

CTP Vázquez de Coronado, Technical Degree in Artificial Intelligence – Coronado, Costa Rica

Feb 2023 – Dec 2025

CTP Vázquez de Coronado, High School Diploma – Coronado, Costa Rica

Feb 2023 – Dec 2025

Courses

- PCAP: Programming Essentials in Python – Cisco Networking Academy
- Python Essentials 1 – Cisco Networking Academy
- Python Essentials 2 – Cisco Networking Academy
- Computer Hardware Basics – Cisco Networking Academy
- Introduction to Internet of Things (IoT) – Cisco Networking Academy
- Comprehensive Office Automation Course – Universidad Técnica Nacional
- Introduction to Cybersecurity – Cisco Networking Academy
- Partner: NDG Linux Essentials – Cisco Networking Academy
- Cybersecurity Essentials – Cisco Networking Academy
- JavaScript Essentials 2 – Cisco Networking Academy
